DETAILED ACTION

Claim Objections

1. Claims 3 is objected to because of the following informalities: the language "...between other one of the..." (line 3) and "...describing the other one of the..." (line 5) is considered unclear. It is believe the Applicant meant to claim that which is more clearly disclosed in the language of claim 9. Appropriate correction is required.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 7-12 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Data structures (computer programs) not claimed as embodied in computer-readable media are descriptive material per se and are not statutory because they are not capable of causing functional change in the computer. See, e.g., Warmerdam, 33 F.3d at 1361, 31 USPQ2d at 1760.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. In regards to claims 1 and 7 it is unclear as to how the step of calculating displacements of the two underlying points in transit of the two stratigraphic surfaces of the reference realization factor into the interpolation step disclosed in claims 1 and 7. For example, is the step of calculating displacements used in some manner to define the number of planes created by said interpolation step or is this step totally separate from the interpolation step? Because of said lack of clarity the scope of the claims is considered indefinite and thus no art can be applied.
